

Yosemite National Park (CA)

Connor Timpone was born and raised in the foothills of the Appalachians in North Georgia. She grew up running around in the great out-of-doors which played a significant role in cultivating her love and desire to work in environmental fields. Connor graduated from the University of Georgia with a B.S. in Ecology, has traveled to many countries around the world studying environmental practices and has through hiked both the Appalachian Trail and Pacific Crest Trail. While hiking the PCT, Connor wandered through the majestic Sierra Mountains and slept under the stars in Tuolumne Meadows. She quickly became enamored with Yosemite National Park and looks forward to sharing her energy for protecting and preserving the land with others!
