

## MISSISSIPPI RIVER NATIONAL RIVER AND RECREATION AREA (MN)

Claire Jaeger Mountain grew up in Minneapolis, MN and attended the University of Minnesota, Twin Cities for her undergrad. She marched in the Pride of Minnesota marching band as a tuba player and worked at the IT office helping people reset their passwords. Graduating in December 2018, she received a degree in Ecology, Evolution, & Behavior with minors in Marine Biology and Plant Biology (which are very opposite to each other). Eventually, she wants to become a high school science teacher. Claire has begun her journey with the National Park Service as

the CVA at the Mississippi National River and Recreation Area and is most excited about working with lots of different people in the 72-mile-long park with habitat restoration, education, and wildlife surveys. She loves to cross-country ski and swim, and her lifelong dream is to own a tiny home and have a dog.
