

## HARPERS FERRY NATIONAL HISTORICAL PARK AND HARPERS FERRY CENTER (WV)

Michael Fray is from Waldorf Maryland which is a part of Southern Maryland. In August 2018, he graduated with his bachelors at Frostburg State University in Recreation and Parks Management. He likes hiking, running and exploring different places. He was in Boy Scouts when he was younger and, in 2013, earned Eagle Scout. Being in Scouts helped him get connected with the amazing natural resources, from going on camping trips to hiking and backpacking outings. When he was at Frostburg he was able to help with some different events his major put on. One of those events they host and run is the city of Frostburg Halloween event. When he was attending Frostburg, he was able to go on many day trips to different parks, go on short hikes, and explore what there was to offer. He is excited for this new position as the CVA for Harpers Ferry National Historical Park and Harpers Ferry Center.
