

JEWEL CAVE NATIONAL MONUMENT (SD)

Olivia is from Michigan, where it's natural to appreciate nature. She discovered a passion for service by volunteering at her local library and developed a habit of hard work by detasseling corn.

While attending the University of Michigan, Olivia worked at the Office of Student Recruitment and interned at the Art Institute of Chicago with the human resources department. She earned a degree in Arts and Ideas in the Humanities and specialized in Digital Storytelling. After graduating, Olivia joined AmeriCorps in Lansing and focused on economic opportunity.

Olivia believes that strong communities consist of confident and connected members. By providing care and attention to volunteers at Jewel Cave National Monument, she hopes to support individual growth and ultimately strengthen the NPS community as a whole.
